LE VOLEUR DE VELO [FR]

Hidden synth
barbaric arpeggiator
low pressure hardcore
live set 30 minutes

Le Voleur De Vélo «the bicycle thief» roams the world looking for a place where he can plug his synthetizers. The thief dives into the deviant 60's organs, the 80's darkness and the oddity that goes with the tumble of our kind of civilisation.

RIDER We are two people on the road with our setup, without sound engineer.

CATERING one hot/cold meal per person before/after the gig – no special diet – beer, soft drinks, two breakfasts. **TECHNICS** A 300W 6 tracks PA, two SM57/58 microphones or similar, allow a dry place for material storage. **SLEEPING** We'd like a warm place with a shower and at least a double mattress.
